## Market Update

Daryn Edgar has recently tendered her resignation as CEO of Techniche Ltd.

Daryn has implemented significant change across the business shifting from the consolidated business model to a lines of business model focussed on Statseeker, Urgent, and Techniche EV, and we now have sustainable business plans and go-to-market strategies. This enables us to more clearly focus the value propositions and value creation around each line of business independently.

The Board is working with Daryn on a transition plan to ensure that we don't lose momentum or focus on the activities underway across the business.

The Board will provide a further update to shareholders in near future.

## About Techniche

Techniche is creating data driven solutions for optimizing asset uptime. We are providing intelligent software solutions to automate the monitoring and maintenance of critical revenue and operational assets of leading companies and government organisations across the globe.
